INDEX OF VOLUME 7

Index by Title

Adventures in (Computerized) Topology;
Gary Richard - Num. 5, p. 330

Another Demonstration of the Existence of Euler's Constant;
Norman Schaumberger - Num. 10, p. 657

Arctan 1 + Arctan 2 + Arctan 3 = π;
Michael Eisenstein - Num. 5, p. 592

The Area of a Triangle Formed by Three Lines;
Michael Orrick Jr. - Num. 5, p. 294

The Axiom of Choice;
John Vaughn - Num. 2, p. 120

Bow-Tie Polygons: A Sequel to the Equilic Quadrilateral;
Clayton M. Dodge & Jack Garfunkel - Num. 7, p. 453

Close Encounters of the Mathematical Kind;
Eileen Poiani - Num. 1, p. 37

A Collection of Mathemusicals;
George E. Lindamood - Num. 2, p. 119

A Comparison of Computer Algorithms to Solve for Knight's Tour;
Gary Richard - Num. 3, p. 169

Complex Matrices and Polynomials;
Alan Wilde - Num. 10, p. 648

Little Known Computer Languages;
Author Unknown - Num. 9, p. 567

Some Conditions for One-To-One-Ness;
Richard K. Williams - Num. 2, p. 115

The Cubic Equation Revisited;
F. Maxstein - Num. 6, p. 382

A Curios Ratio of K-Stars;
Michael Eisenstein - Num. 9, p. 593

A Day at the Races;
William Tomcsanyi - Num. 6, p. 396

Another Day at the Races;
Edward Anderson - Num. 9, p. 571

Dependent Events;
Genoveno C. Lopez & Joseph M. Moser - Num. 2, p. 117

Discartes: Philosopher or Mathematician;
James F. Goeke - Num. 8, p. 512

Differentiability and Directional Derivatives;
Nicholas Ford & Moses Glasmer - Num. 10, p. 636

The Dirichlet Problem: A Mathematical Development;
John Goulet - Num. 8, p. 502

On the Discrete Lyapunov and Riccati Matrix Equations;
Mink T. Tran & Mahamoud E. Swan - Num. 9, p. 574

Some Divisibility Properties of Binomial Coefficients;
Jean Ezell - Num. 4, p. 248

The Double Ferris Wheel Problem;
Al Parish - Num. 1, p. 13

An Embedding Theorem for Separable Metric Spaces;
Roger G. McCann - Num. 1, p. 29

Employment Opportunities in Industry for Non-Ph.D. Mathematicians;
Donald Bushaw - Num. 4, p. 257

The Equilic Quadrilateral;
Jack Garfunkel - Num. 6, p. 317

On Evaluating the Legendre Symbol;
Michael Filaseta - Num. 3, p. 165

Family of Convergent Series with Sums;
Steve Kahan - Num. 10, p. 655

Fenet Formulas in N-Dimensions;
Benny Cheng - Num. 10, p. 629

The Fuzzy Plane;
Christopher Roesmer - Num. 9, p. 582

General Solution of a General Secord-Order Differential Equation;
R. S. Luther - Num. 5, p. 303

A Geometric Interpretation of Symmetric Matrices;
Dennis R. Floyd - Num. 7, p. 438

A Guide for Teaching Mathematics;
Author Unknown - Num. 7, p. 499

An Infinite Number of 4 x 4 Magic Squares;
Stephen Ruberg - Num. 5, p. 299

The Integration of $\sec^3 x$;
Michael Lee Walloga - Num. 3, p. 155

Integration: Why You Can and Why You Can't;
Rick Miranda - Num. 9, p. 557

Linear Approximations to Square Roots;
Stewart M. Venit - Num. 1, p. 25

Lines and Parabolas in Taxicab Geometry;
Joseph M. Moser & Fred Kramer - Num. 7, p. 441

Loops in Some Sequences of Integers;
Victor G. Feser - Num. 1, p. 19

Mathematical Research and Development;
Paul J. Nahin - Num. 1, p. 33

A Matrix Model for Use in Population Ecology;
Michael J. Young - Num. 2, p. 93

Investigation of Maxfield's Theorem;
Laura Southand - Num. 8, p. 493

A Simple Model for Two Interacting Species and the Principle of Competitive Exclusion;
Karen Cunningham - Num. 8, p. 523

An Analysis of Monopoly;
Thomas Chenier - Num. 9, p. 586

Non-Linear Additive Functions;
Julie D. Anderson - Num. 1, p. 7

The Number of Bridges and Cutpoints in a Cubic Graph;
Paul G. Eitner & Frank Harary - Num. 4, p. 242

Obtaining the Shortest Confidence Interval for an Unknown Parameter;
B. Crain - Num. 10, p. 640

One Way Orientations of Graphs;
David Burns - Num. 3, p. 176

Partial Differentiation of Functions of a Single Variable;
Richard Katz & Stewart Venit - Num. 6, p. 405

Probability of Being a Loser;
Elliot A. Tanis - Num. 2, p. 107

The Probability of Generating a Cyclic Group;
Deborah Massari - Num. 1, p. 3

120° and 60° Pythagorean Triples;
Benedict Pollina & Stephen Shover - Num. 5, p. 307

Quadric Surfaces Associated with Linear Differential Equations;
Duane DeTemple & Roland Starr - Num. 6, p. 358

Two Remarks on the Quaternions;
Ziah Haddad - Num. 4, p. 221

Does $(a + ib)^{(c + id)}$ Equal a Real Number?;
Ravi Salgia - Num. 9, p. 590

Relativity in Perspectivity;
William Terkeurst - Num. 6, p. 365

Rolling Cones;
Alma E. Posey - Num. 3, p. 157

Singular Functions;
Sandra L. Cousins - Num. 6, p. 374

A Theorem of Similar Triangles;
Michael Eisenstein - Num. 8, p. 518

Sum of Powers of 2;
Hao-Hhien Qui Vu - Num. 9, p. 585

Taxicab Geometry;
Barbara E. Reynolds - Num. 2, p. 77

Taxicab Geometry: Another Look at Comic Sections;
David Iny - Num. 10, p. 645

A Test for Primeness Using Stern's Diatomic Series;
Michael L. Call - Num. 3, p. 150

Theory on Integral Equations of the Form $A_1^d + A_2^d + \ldots + A_n^d + B^d = C$;
Kevin Theall - Num. 2, p. 101

Uniform Algebras and Scattered Spaces;
Robert C. Smith - Num. 4, p. 232

Upper Bound on the Error for the Cubic Interpolating Polynomial;
John Beasley - Num. 10, p. 652

Variations on the AM-GM Inequality;
J.L. Brenner - Num. 7, p. 465

Vector Subspaces of Magic Squares;
Bradley D. Strand - Num. 7, p. 430

Volume of an N-Dimensional Unit Sphere;
Ravi Salgia - Num. 8, p. 496

Index by Name

Anderson, Edward - Num. 9, p. 251
Another Day at the Races

Anderson, Julie D. - Num. 1, p. 7
Non-Linear Additive Functions

Beasley, John - Num. 10, p. 652
An Upper Bound on the Error for the Cubic Interpolating Polynomial

Brenner, J. L. - Num. 7, p. 465
Variations on the AM-GM Inequality

Burns, David & S. F. Kapoor - Num. 3, p. 176
One Way Orientations of Graphs

Bushaw, Donald - Num. 4, p. 257
Employment Opportunities in Industry for Non-Ph.D. Mathematicians

Call, Michael L. - Num. 3, p. 150
A Test for Primeness Using Stern's Diatomic Series

Cheng, Benny - Num. 10, p. 629
Frenet Formulas in N-Dimensions

Chenier, Thomas & Cathy Vanderford - Num. 9, p. 586
An Analysis of Monopoly

Cousins, Sandra - Num. 6, p. 374
Singular Functions

Crain, B. et al - Num. 10, p. 640
Obtaining the Shortest Confidence Interval for an Unknown Parameter

Cunningham, Karen - Num. 8, p. 523
A Simple Model for Two Interacting Species and the Principle Competitive Exclusion

DeTemple, Duane & Roland Starr - Num. 6, p. 358
Quadric Surfaces Associated with Linear Differential Equations

Dodge, Clayton M. & Jack Garfunkel - Num. 7, p. 453
Bow-Tie Polygons: A Sequel to the Equilic Quadrilateral

Eisenstein, Michael - Num. 9, p. 592
Arctan 1 + Arctan 2 + Arctan 3 = π

Eisenstein, Michael - Num. 9, p. 593
A Curios Ratio of K-Stars

Eisenstein, Michael - Num. 8, p. 518
A Theorem of Similar Triangles

Eitner, Paul G. & Frank Harary - Num. 4, p. 242
The Number of Bridges and Cutpoints in a Cubic Graph

Ezell, Jean - Num. 4, p. 248
Some Divisibility Properties of Binomial Coefficients

Feser, Victor G. - Num. 1, p. 19
Loops in Some Sequences of Integers

Filaseta, Michael - Num. 3, p. 165
On Evaluating the Legendre Symbol

Floyd, Dennis R. - Num. 7, p. 439
A Geometric Interpolation of Symmetric Matrices

Ford, Nicholas & Glasmer, Moses - Num. 10, p. 636
Differentiability and Directional Derivatives

Garfunkel, Jack - Num. 6, p. 317
The Equilic Quadrilateral

Goeke, James F. - Num. 8, p. 512
Descartes: Philosopher or Mathematician

Goulet, John - Num. 8, p. 502
The Dirichlet Problem: A Mathematical Development

Haddad, Ziad - Num. 4, p. 221
Two Remarks on the Quarternions

Iny, David - Num. 10, p. 645
Taxicab Geometry: Another Look at Comic Sections

Kahan, Steven - Num. 10, p. 655
A Family of Convergent Series With Sums

Katz, Richard & Venit, Stewart - Num. 6, p. 405
Partial Differentiation of Functions of a Single Variable

Lindamood, George E. - Num. 2, p. 19
A Collection of Mathemusicals

Lopez, Genoveno C. & Moser, Joseph M. - Num. 2, p. 117
Dependent Events

Luthar, R. S. - Num. 5, p. 303
General Solution of a General Second-Order Linear Differential Equation

Massari, Deborah - Num. 1, p. 3
The Probability of Generating a Cyclic Group

McCann, Roger G. - Num. 1, p. 29
An Embedding Theorem for Separable Metric Spaces

Miranda, Rick - Num. 9, p. 557
Integration: Why You Can and Why You Can't

Moser, Joseph M. & Kramer, Fred - Num. 7, p. 441
Lines and Parabolas in Taxicab Geometry

Nahin, Paul J. - Num. 1, p. 33
Mathematical Research and Development

Orrick Jr., Michael - Num. 5, p. 294
The Area of a Triangle Formed by Three Lines

Parish, Al - Num. 1, p. 13
The Double Ferris Wheel Problem

Poiani, Eileen - Num. 1, p. 37
Close Encounters of the Mathematical Kind

Pollina, Benedict & Shover, Stephen - Num. 5, p. 307
120° and 60° Pythagorean Triples

Posey, Alma E. - Num. 3, p. 157
Rolling Cones

Reynolds, Barbara E. - Num. 2, p. 77
Taxicab Geometry

Richard, Gary - Num. 5, p. 330
Adventures in (Computerized) Topology

Richard, Gary - Num. 3, p. 169
A Comparison of Computer Algorithms to Solve for Knight's Tour

Roesmer, Christopher - Num. 9, p. 582
The Fuzzy Plane

Ruberg, Stephen - Num. 5, p. 229
An Infinite Number of 4 x 4 Magic Squares

Salgia, Ravi - Num. 9, p. 590
Does $(a + ib)^{(c + id)}$ Equal a Real Number?

Salgia, Ravi - Num. 8, p. 496
Volume of an N-Dimensional Unit Sphere

Schaumberger, Norman - Num. 10, p. 657
Another Demonstration of the Existence of Euler's Constant

Smith, Robert C. - Num. 4, p. 232
Uniform Algebras and Scattered Spaces

Southand, Laura - Num. 8, p. 493
Investigation on Maxfield's Theorem

Stein, F. Max - Num. 6, p. 382
The Cubic Equation Revisited

Strand, Bradley D. - Num. 7, p. 430
Vector Subspaces of Magic Squares

Sutherland, David - Num. 4, p. 252
The Kernel of the Laplace Transform

Tanis, Elliot A. - Num. 2, p. 107
Probability of Being a Loser

Terkeurst, William - Num. 6, p. 365
Relativity in Perspectivity

Theall, Kevin - Num. 2, p. 101
Theory on Integral Equations of the form $A_1^d + A_2^d + \ldots + A_n^d + B^d = C$

Tomcsanyi, William - Num. 6, p. 396
A Day at the Races

Tran, Mink T. & Swan, Mahamoud E. - Num. 9, p. 574
On the Discrete Lyapunov and Riccati Matrix Equations

Vaughn, John - Num. 2, p. 120
The Axiom of Choice

Venit, Stewart M. - Num. 1, p. 25
Linear Approximations to Square Roots

Vu, Hao-Hhien Qui - Num. 9, p. 585
Sums of Powers of 2

Walloga, Michael Lee - Num. 3, p. 155
The Integration of $\sec^3 x$

Wilde, Alan - Num. 10, p. 648
Complex Matrices and Polynomials

Williams, Richard K. - Num. 2, p. 115
Some Conditions for One-To-One-Ness

Young, Michael J. - Num. 2, p. 93
A Matrix Model for Use in Population Ecology
